

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

DOUBLE NUMBERS \$2.00

# A FULL LIST OF THE PUBLICATIONS OF THE AMERICAN MICROSCOPICAL SOCIETY.

- Volume I. Proceedings of the National Microscopical Congress, held at Indianapolis, Ind. .... 1878, and of the American Society of Microscopists, held at Buffalo, N. Y., .... 1879. 77 pp. 5 pls. Indianapolis: 1880.
- Volume II. Proceedings of the American Society of Microscopists. 84 pp. 3 pls. Columbus, Ohio: 1881.
- Volume III. Proceedings of the American Society of Microscopists. 102 pp. 7 pls. Buffalo: 1881.
- Volume IV. Proceedings of the American Society of Microscopists. 292 pp. 6 pls. Buffalo: 1882.
- Volume V. Proceedings of the American Society of Microscopists. 275 pp. 2 pls. Buffalo: 1883.
- Volume VI. Proceedings of the American Society of Microscopists. 300 pp. 6 pls. Buffalo: 1884.
- Volume VII. Proceedings of the American Society of Microscopists. 258 pp. 6 pls. Buffalo: 1885.
- Volume VIII. Proceedings of the American Society of Microscopists. 243 pp. 7 pls. Buffalo: 1886.
- Volume IX. Proceedings of the American Society of Microscopists. 359 pp. 14 pls. Peoria, Ill.: 1888.
- Volume X. Proceedings of the American Society of Microscopists. 204 pp. Hartford, Conn.: n. d.
- Volume XI. Proceedings of the American Society of Microscopists. 182 pp. 11 pls. Buffalo: 1889.
- Volume XII. Proceedings of the American Society of Microscopists. 312 pp. 10 pls. Washington, D. C.: 1891.
- Volume XIII. Proceedings of the American Society of Microscopists. 219 pp. 15 pls. Washington, D. C.: 1892.
- Volume XIV. Proceedings of the American Microscopical Society. 185 pp. 12 pls. In three parts. Washington, D. C.: 1892-93.
- Volume XV. Proceedings of the American Microscopical Society. 271 pp. 26 pls. In four parts. Washington, D. C.: 1893-94.
- Volume XVI. Proceedings of the American Microscopical Society. 276 pp. 35 pls. In four parts. Ithaca, N. Y.: 1894-95.
- Volume XVII. Transactions of the American Microscopical Society. 376 pp. 24 pls. Buffalo, N. Y.: 1895 (1896?).
- Volume XVIII. Transactions of the American Microscopical Society. 420 pp. 39 pls. Buffalo, N. Y.: 1896 (1897?).
- Volume XIX. Transactions of the American Microscopical Society. 207 pp. 16 pls. Buffalo, N. Y.: 1897.
- Volume XX. Transactions of the American Microscopical Society. 369 pp. 32 pls. Lincoln, Neb.: 1899.
- Volume XXI. Transactions of the American Microscopical Society. 275 pp. 17 pls. Lincoln, Neb.: 1900.

# TRANSACTIONS AMERICAN MICROSCOPICAL SOCIETY

**TWENTY NINE VOLUMES ISSUED**

**AS A TEACHER, do YOU realize**

That you can get systematic papers, including keys, which will be of great value to your students in the study of the following and other groups of organisms?

Various genera of Water-mites, by Professor Wolcott and others.

Various genera of Protozoa, of Rotifers, and Polyzoa.

Genera of Diatoms, Desmids, Conjugatae, Protophytes, Protococcoideae, Phycomycetes, and other Classes, by Professor Bessey. (This is the best systematic account of the lower plants available to microscopists.)

Determination of Human Entozoa, by Professor Ward.

**AS A PHYSICIAN, do YOU realize**

That the pages of the Transactions contain scores of articles on medico-biological subjects of great interest to you? Some of these are: medical and medico-legal microscopy; microscope in diagnosis; parasitology; bacteriology; trypanosomes; blood studies of various kinds; water pollution and purification.

**AS A MICROSCOPIST, do YOU realize**

That nowhere else in American Biological literature is there so complete a record of the development of the microscope as an instrument, of the progress of its technic, and of the application of it to the uses of man in research and in the betterment of human conditions?

**AS A LIBRARIAN do YOU realize**

That a set of these volumes would be of the greatest possible value to your High School or College department of Biology; or in the public library to all the physicians and general students of micro-biology in the community? Volume XXV contains an index of the volumes from the beginning. It is safe to say that this index is the completest single guide to microscopic literature readily available to our libraries today.

**AS A GENERAL STUDENT OF BIOLOGY do YOU realize**

That the Transactions contain many biological papers of the greatest general value and interest? Among many others:

Professor Eigenmann's studies on the Eyes of Cave Vertebrates.

Professor Bessey's address on Evolution in Microscopic Plants.

Dr. Ewell's paper on the Use of the Microscope and Camera in Detection of Forgery.

Dr. Gage's address on the History of the Projection Microscope.

Dr. Burrill's address on Micro-organisms of the Soil.

Dr. Fell's address on the Influence of Electricity on Protoplasm.

Back volumes \$3 each (to members, \$2). A few nearly complete sets may be had at special prices.

Address the Secretary,

T. W. GALLOWAY, Decatur, Ill.

## OFFICERS.

---

*President:* HERBERT OSBORN.....Columbus, Ohio  
*Vice President:* A. E. HERTZLER, M.D.....Kansas, City, Mo.  
*Secretary:* T. W. GALLOWAY.....Decatur, Ill.  
*Treasurer:* T. L. HANKINSON.....Charleston, Ill.  
*Custodian:* MAGNUS PFLAUM.....Meadville, Pa.

---

## ELECTIVE MEMBERS OF THE EXECUTIVE COMMITTEE

C. E. HANAMAN.....Troy, N. Y.  
R. S. GRAY.....Oakland, Cal.  
J. H. MOCKETT.....Lincoln, Neb.

---

## EX-OFFICIO MEMBERS OF THE EXECUTIVE COMMITTEE

Past Presidents still retaining membership in the Society

R. H. WARD, M.D., F.R.M.S., of Troy, N. Y.,  
at Indianapolis, Ind., 1878, and at Buffalo, N. Y., 1879.  
J. D. HYATT, of New Rochelle, N. Y.,  
at Columbus, Ohio, 1881.  
ALBERT McCALLA, Ph.D., of Chicago, Ill.,  
at Chicago, Ill., 1883.  
T. J. BURRILL, Ph.D., of Urbana, Ill.,  
at Chautauqua, N. Y., 1886, and at Buffalo, N. Y., 1904.  
GEO. E. FELL, M.D., F.R.M.S., of Buffalo, N. Y.,  
at Detroit, Mich., 1890.  
MARSHALL D. EWELL, M.D., of Chicago, Ill.,  
at Rochester, N. Y., 1892, and at Boston, Mass., 1907.  
SIMON HENRY GAGE, B.S., of Ithaca, N. Y.,  
at Ithaca, N. Y., 1895 and 1906.  
A. CLIFFORD MERCER, M.D., F.R.M.S., of Syracuse, N. Y.,  
at Pittsburg, Pa., 1896.  
A. M. BLEILE, M.D., of Columbus, Ohio,  
at New York City, 1900.  
C. H. EIGENMANN, Ph.D., of Bloomington, Ind.,  
at Denver, Colo., 1901.  
CHARLES E. BESSEY, LL.D., of Lincoln, Neb.,  
at Pittsburg, Pa., 1902.  
E. A. BIRGE, LL.D., of Madison, Wis.,  
at Winona Lake, Ind., 1903.  
HENRY B. WARD, A.M., Ph.D., of Lincoln, Neb.,  
at Sandusky, Ohio, 1905.

The Society does not hold itself responsible for the opinions expressed by members in its published *Transactions* unless endorsed by a special vote.

## TABLE OF CONTENTS

FOR VOLUME XXIX, NUMBER 2.

The Future Activity of the American Microscopical Society, by T. W. Galloway .....	79
The Phyla, Classes, and Orders of Plants, by Charles E. Bessey.....	85
New Studies of the Arrhenuri, by Ruth Marshall, with plates I to III....	97
The Lakes of the Glacier National Park: 1. Avalanche Lake, by Morton J. Elrod, with plates IV to VI.....	111
Recent Progress in Parasitology, by Henry B. Ward.....	119
Recent Progress in the Pedagogy of Biology, by John G. Coulter.....	159
The Spencer-Tolles Fund, by Magnus Pflaum.....	167
Notes, Reviews, etc. A Method of Making Absolute Alcohol; A Convenient Reagent Case; Cultures of <i>Saprolegnia</i> ; Cultivation of Fresh-water Algae; Distribution of Rotifers; Vitality in <i>Paramecium</i> ; Technic of Tubercle Bacilli; Bacterial Infection by Endoparasites; Longevity in <i>Trichina</i> ; Symbiosis and Parasitism; The Use of the Microscope in Elementary Biology.....	171
Necrology.	
William Henry Dallinger, D.Sc., D.C.L., with Portrait, by A. E. Shipley	183
William Christopher Krauss, M.D., with Portrait, by Henry R. Howland	187
Richard S. Nunn, M.D., by H. W. Witcover.....	189
Constitution and By-Laws.....	191
List of Members.....	195
List of Subscribers.....	201
Index .....	203
Advertisements .....	I-VI

## OFFICIAL NOTICE OF ANNUAL MEETING

AT

MINNEAPOLIS, MINN., DEC. 27-28, 1910

IN CONNECTION WITH THE A. A. A. S.

The Secretary has already received the titles of enough papers to make an interesting meeting.

Business of unusual importance to the members will be transacted. There should be a good attendance.

Please send to the secretary at once the title of your paper, and the names of any whom you wish to propose for membership.

PLACE OF MEETING: UNIVERSITY OF MINN.; PILLSBURY HALL, ROOM 7.

# DEPARTMENT OF SUMMARIES

TO BE DEVOTED TO DIGESTS OF PROGRESS  
IN BIOLOGY

---

While the *Transactions* will continue to be primarily a Journal of research in micro-biology, it is recognized that the field has become so broad as to preclude the possibility of frequent articles in any one of the departments of special interest. Because of this it will be the policy to present, from time to time, supplementary digests of the progress being made in the various fields of micro-biology. It is also proposed to introduce similar summaries of the progress made in some departments not represented in our articles of research. This is done with the feeling that such reviews will increase the permanent value of the *Transactions* to all who may not have access to a large list of technical biological journals, nor the time to make the survey for themselves. The first of the reviews in this issue covers a territory finding large application for the physicians and for students of parasites; the second, for those who teach.—[Editor.]
